River Falls Comforts of Home Senior Living

November 2018

“Blessings Galore!”

We are so fortunate, yes, definitely blessed, to have such a beautiful campus for our residents to take in. One of the favorite activities for our gentlemen is to meet up to catch some fish and share those “big luncker” stories. We also have an abundance of birds that are attracted by the various bushes, cattails and marshland that surround our lake. A bird expert from Oakdale Birding spent a day on our campus and presented a workshop about red winged blackbirds, cardinals, warblers, blue jays and humming birds whose beautiful color and songs always bring joy to our residents. King Charles Cavalier puppies visit us each week from the local Hilltop Kennel. Many special relationships have been formed as there is nothing more likely to bring smiles to our residents’ faces as kisses and love from a dog. To celebrate National Dog Week, we made puppy treats of pumpkin and peanut butter, and also wove some chew toys. It was great fun. The River Falls Bus company continues to provide wonderful transportation, albeit a bit bumpy at times, and incredibly caring drivers. One of our adventures was to Stillwater and Aamodt’s Apple Orchard. We got a personalized tour of Stillwater and it’s rich history of logging and stunning Victorian homes. Taste testing apples and bringing more home ended the day with good nourishment and fond memories. Many volunteers enrich daily life for our residents. One special group of ladies, Peace in the Valley singers, present a concert every other month of spiritual, oldies but goodies, patriotic and many other song selections. Residents sing along and are truly “lifted up” for the rest of the day and beyond. We will enjoy their upcoming holiday concert, and are looking forward to other holiday festivities.
